NEWPORT, TENN.

Wanted!

Hemlock Wood Specifications

All hemlock wood must be SAWED, (not chopped), to lengths. Wood with bark on must be in lengths of either 3 feet 4 inches or 5 feet. Round wood to be not less than 5 inches diameter at small end, and up to 10 inches diameter, NOT SPLIT. Large diameters to be so split as to show not less than 8 inches face on the piece. Wood to be sound, (except worm holes), and not charred or blackened by fire. Knots and limbs must be trimmed off close—poorly trimmed wood will be rejected. Trees from which the bark has been peeled can be sawed to lengths of 3 feet, 4 feet or 5 feet, and split to above sizes. All sap rot and decay places, must be removed down to the sound wood. Notify us of the length you decide to adopt in your cutting, as these lengths must not be mixed together in loading. One hundred and sixty, (160), cubic feet constitute a cord. Freight will be charged back on under loaded cars and upon rejected wood.

ACT QUICKLY

Delay Has Been Dangerous in
Newport.

Do the right thing at the right time. Act quickly in times of danger. Bachache is kidney danger. Doan's Kidney Pills act quickly. Are for distressing, dangerous kidney ills.

Plenty of evidence to prove their worth.

Mrs. Nancy E. Cates, Riverview St., Newport, Tenn., says: "Four years ago I suddenly began to suffer from a dull, bearing-down ache in my back it steadily grew worse until I was unable to work or get my proper rest. I was also troubled by dizziness and the kidney secretions became unnatural. A member of my family had always considered Doan's Kidney Pills the best kidney medicine to be had and finally I decided to try them, procuring a box from the Minnis Drug Co. They relieved me promptly and for that reason, I consider them worthy of the highest endorsement." (Statement given January 6, 1907.)

NO TROUBLE SINCE.

Mrs. Cates was interviewed on December 17, 1910 and she said: "I have had no recurrence of kidney complaint since I used and publicly endorsed Doan's Kidney Pills. I have no hesitation whatever in confirming my former statement in which I told of my experience."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's and take no other.

BOY SCOUT PROVED MERIT.

Helped Policeman Stop Runaway and Prevented Water Damage.

The practical value of the boy scout movement has been made clear to a Providence (R. I.) policeman by two acts of helpfulness in which a boy of fifteen, a member of the local organization, recently figured.

The patrolman had just managed to stop a runaway team when, glancing around, he saw a boy hanging to the other bridle. "I'll hold the horse, sir, until the owner comes up," said the boy, and he did.

The same boy a few days later happened to hear water running inside a house and, finding it impossible to arouse any one, took a long, cold walk to the city hall and notified the water department. Inquiry showed that a pipe had frozen and burst and that serious loss would have resulted had the deluge continued.

MONTENEGRINS BIG FEEDERS.

Legislator Presents Ox to Fellows and Adjournment Follows.

It is reported from Cetinje that the members of the skupshtina were still feasting on the third day of the orthodox Christmas on the remains of the well fed ox presented by Mirdelo Jilitch, a patriotic peasant, to the Montenegrin house of representatives. The arrival of the animal in Cetinje caused a sensation in the capital.

Mirdelo led it himself in front of the skupshtina, and the legislators hurried out to view it and discuss the place and manner of roasting, with all other details so that it could be partaken of in accordance with the donor's intent comfortably and fraternally by all the members. With the disappearance of the last shred of beef the house will resume its labors, and a vote of thanks will be passed to Mirdelo.

Imports Show Big Increase.

A complete report from the New York custom house for 1910 will show an increase of \$236,000,000 in the value of imports above the figures of the previous year.

MICHIGAN'S BIG BEAN CROP.

Product Worth Nearly \$20,000,000, It Is Figured.

When Michigan's bean crop of 1910 shall have been converted into the baked article and otherwise almost \$20,000,000 will have been spent for the product of that state by the people of the world who indulge in this food. Reports show that Michigan grew 6,150,000 bushels last year, easily outranking any other state in this specialty. The retail price of beans everywhere, excepting for the selected, hand picked variety, all of which is added to carry you a little higher, is 10 cents a quart.

Peru Paves Way For Gotham.

New York believes its Croton aqueduct, thirty-eight miles long, is a great engineering feat, but Peru had one a few hundred years ago that was 330 miles long.

Minus One.

It creates a good deal of fun to start reciting any poem and after each word to add "minus one." Thus, "Goosey minus one, goosey minus one, gander minus one, whither minus one, do minus one, you minus one, wander minus one." The player who makes a slip of the tongue or who laughs is to pay a forfeit.

WORK OF THE LATE CONGRESS

(Continued from page 1)

of general measures consists chiefly of the appropriation bills and several of those have seemed in danger more than once in the tense situation of the last few days, when long hours passed away in filibustering on one side or the other.

FLOOD OF BILLS.

Thousands of bills were introduced and thousands more came to the closing session as a heritage from the first and second sessions. In all, there are between 35,000 and 45,000 measures before the congress as it comes to a close. The failure to enact many laws was not due to lack of raw material.

These are some of the more important measures, outside the appropriations bill, that the final session of this congress enacted into law.

Providing for forest reserves in the Southern Appalachian and White mountains.

Providing for the inspection of boilers on locomotives.

Providing for the purchase or erection of embassies, legations and consular buildings abroad.

An ocean mail bill passed the senate, but the house did not manifest enough liking for it to send it on to the White House.

Barren as the final session may have been of fruitful legislation, the republican leaders point to the preceding sessions as more fruitful.

For the first, or extra, session, they point to:

The Payne-Aldrich tariff act, with its maximum and minimum features and corporation tax provisions, and its customs court.

The resolution providing for an income tax amendment to the constitution.

For the first regular session they refer to the laws for:

Establishment of postal savings banks.

Admission of New Mexico and Arizona to statehood.

The most extensive census ever taken.

Creation of the commerce court and sweeping amendments to the interstate Commerce act.

Ballinger-Pinchot investigation.

Conservative legislation including authorization of withdrawal of public lands to preserve water sites and authorization of the issue of twenty million in bonds for completing irrigation projects.

Legislation designed to suppress the "white slave trade."

Publicity of campaign contributions at election of members of the house.

Amendment to the employers' liability act of 1908; supplemental safety appliance act; requirement that railroads report accidents to interstate commerce commission and establishment of a bureau of mines.

Reorganization of lighthouse service.

Authorization of expenditures of \$28,000,000 for public buildings.

"The Liver Pills act So Naturally and Easily."

Such a statement, coming from the cashier of a bank, shows what confidence responsible people have in these pills. Mr. A. L. Wilson after trying them wrote:

"I have used Dr. Miles' Nerve and Liver Pills and also your Anti-Pain Pills, on myself, with good results. The Liver Pills act so naturally and so easily that I scarcely know that I have taken a pill. Frequently being troubled with headache I take an Anti-Pain Pill and get immediate relief in every case."

A. L. Wilson, Sparta, Ill.
Mr. Wilson was for a number of years cashier of the First National Bank of Sparta.

Dr. Miles' Nerve and Liver Pills

are different from others. Many kinds of liver pills are "impossible" after one trial on account of their harshness. Dr. Miles' Nerve and Liver Pills do not act by sheer force but in an easy, natural way, without griping or undue irritation. They are not habit forming.

If the first bottle fails to benefit, your druggist will return the price. Ask him.

MILES MEDICAL CO., Elkhart, Ind.

WOODROW WILSON THE LOGICAL CANDIDATE

MORE LIKELY THAN JUDSON HARMON

Governor of New Jersey May be Taft's Opponent for Presidency.

REASONS ARE SUBMITTED

Only Danger to the Slate will be the Possibility of the Insurgent Democrats Capturing the National Convention and Nominating a Man Like LaFollette.

Barring accidents of a physical nature, the two opposing candidates for the Presidency of the United States in 1912 will be William Howard Taft, Republican, and Woodrow Wilson, Democrat. We do not presume to impute to discredits the nomination of the former. That, frankly, must be taken for granted. The reasons for its assumption, however, are sufficiently obvious. (1) He is a candidate. (2) He controls the federate patronage. (3) He has won the confidence and respect of the people in a large measure and is gaining favor daily. (4) He is gradually acquiring the active friendship of the inevitable conservative business men, without whose support no candidate has been elected President since 1832. (5) He is and will be unopposed by Roosevelt for the very practical ending of his career as President, probably immediately, but surely at the expiration of four years. (6) His rejection by the national convention would presage certain defeat of the party at the polls.

But one obstacle lies in his path—insurgency. By a remote possibility the new and eager league of radical Republicans may secure control of the convention and nominate, not Cummins, the wheel horse, but La Follette, the resolute, imaginative, inspiring leader. In that event the Democrats will nominate Judson Harmon in consequence of causes precisely analogous to those set forth below which render the choice of Woodrow Wilson as the opponent of President Taft a virtual certainty.

Logic predestines antithesis. Circumstances, conditions, uncontrolled and uncontrollable, demand it. History decrees it. Invariably the opposing candidate has been named, not by the opposition itself, but by the party taking the lead—in all but three instances by the party in power.

1840—The assured nomination of Van Buren compelled the nomination of Harrison in place of Clay.

1844—The nomination of Clay compelled the nomination of Polk in place of Van Buren.

1848—The nomination of Cass compelled the nomination of Taylor in place of Clay, Webster or even Scott.

1852—The nomination of Pierce compelled the nomination of Scott in place of Fillmore.

1856—The nomination of Buchanan compelled the nomination of Fremont in place of McLean.

1860—The assumed nomination of Douglas compelled the nomination of Lincoln in place of Seward.

1864—The renomination of Lincoln compelled the nomination of McClellan in place of Seymour.

1868—The nomination of Grant compelled the nomination of Seymour in place of McClellan.

1872—The renomination of Grant compelled the nomination of Greeley.

1876—The nomination of Hayes compelled the nomination of Tilden in place of Hendricks.

1880—The nomination of Garfield compelled the nomination of Hancock in place of Bayard.

1884—The nomination of Blaine compelled the nomination of Cleveland in place of Bayard or Randall.

1888—The renomination of Cleveland compelled the nomination of Harrison.

1891—The situation reversed. 1896—The nomination of McKinley

compelled the nomination of Bryan in place of Bland or Boies.

1900—The situation reversed.

1904—The nomination of Roosevelt compelled the nomination of Parker in place of Bryan or Cockrell.

1908—The nomination of Taft compelled the nomination of Bryan in place of Parker or any conservative.

Therefore, in

1912 the renomination of Taft will compel the nomination of Wilson in place of Harmon, just as the nomination of La Follette would compel the nomination of Harmon in place of Wilson.

Why?

Obviously but one theme of inquiry demands consideration: Who is the real antithesis of Taft. Bryan? Yes, as in 1909. But Bryan's races have been run. Gaynor? Yes, but Gaynor is disqualified by fate. Folk? Yes; but Folk clearly is outclassed. Champ Clark? Theoretically, perhaps, put practically only as a pretty compliment. Dix? The carrier of water upon both shoulders. The upholder of party fealty, on the one hand and the source of pretexts to bolters on the other? Neither opposite nor apposite is Dix. Remain Harmon and Wilson. Which, we repeat, is the antithesis of Taft?—George Harvey, in the North American Review for March.

NEW TRACK FOR SOUTHERN RY.

(Continued from page 1)

greatly increase the capacity of these lines.

The Southern Railway company has also just placed orders for 27,000 tons of 85-pound steel rail which will be used in track betterments. Of this amount 22,400 tons will be furnished by the Tennessee Coal and Railroad company, 1,800 tons by the Illinois Steel company and 3,000 tons by the Maryland Steel company.

The purchase of this additional motive power and equipment and the proposed track improvements are in line with the policy of the Southern Railway company to provide every possible facility for building the constantly growing traffic throughout the southeastern territory.

FIREMEN SAVE THE SULLINS GIRLS' COLLEGE

Bristol, March 8.—By the promptness of the fire department a disastrous blaze was averted here at six o'clock Friday evening. The blaze broke out on the third floor of Sullins college, which is occupied by 150 boarding girls. While the fire looked threatening the girls were all warned and hurried from the building without accident. The fire was extinguished in twenty minutes.

Bishop Heslin, of Catholic diocese of Natchez, Miss., dies in that city, aged 64.
